SERVICES THAT TRANSFORM

Sapphire Consulting Group helps medium to large businesses acquire the resources, knowledge and technology needed to succeed in today's dynamic environment, and furthermore, adapt to tomorrow's change. Our business and technology experts deliver industry specific insights, combined with business systems knowledge, to help our client reach their goals quicker, and with less risk.

To be successful, businesses can no longer perform using yesterday's operating models. Sapphire helps define strategies which are scalable for growth, flexible to changing priorities, and minimize capital expenses, we. We then help to implement these solutions. Our technical and functional expertise spans IT, talent acquisition, finance, governance, compliance, risk, security, marketing, eCommerce, and sourcing/procurement.

Our Offerings

Staffing Solutions

Sapphire's work is driven by talent. Together, we benchmark your current state and define the future state to craft a custom program that addresses both immediate needs and emerging objectives. We balance creativity with real world performance expectations to deliver results that optimize your investment – customized staffing solutions built upon proven methodology, technology and people.

IT Consulting

Sapphire' helps organizations implement, integrate and optimize powerful technology systems into their core business processes. Anything we do in IT for our clients must have business value and a positive operational impact. Our work spans the complete Systems Lifecycle - from Advisory, to Delivery, to on-going Support. Services are delivered on a staff augmentation, right to hire, or project basis.

Business Operations Consulting

Today, businesses must do three things well: differentiate themselves from their competition, improve productivity and respond to constant change. Every process has the potential to reduce cost, improve quality and increase profits. We work with our clients to solve problems, eliminate inefficiency, identify opportunity and deliver tangible results, balancing short and long term goals.

Program & Project Management (PMO)

No matter the level of program maturity, we help our clients improve their PMO capabilities by assuring the ability to make strategic, real-time decisions. Partnering with Sapphire enables your organization to establish an optimized framework built on proven best practices, tools and templates. We help you streamline the management of strategic initiatives and optimize requests, resources and budgets to the highest possible return.

Data Center Solutions

Sapphire's Data Center Managed Services were developed over years of hands-on experience. We know what it takes to operate a world-class data center to the highest standards of efficiency and service delivery. Our people are experienced, well-rounded and dedicated. Our approach is customer and results focused. Our service is comprehensive, yet flexible and scalable. As your partner, we look beyond SLAs to doing the job right.
